We have reviewed the *Independent Auditor's Report* of Miami Township, Montgomery County, prepared by Perry & Associates, Certified Public Accountants, A.C., for the audit period July 1, 2020, through June 30, 2021. Based upon this review, we have accepted these reports in lieu of the audit required by Section 117.11, Revised Code. The Auditor of State did not audit the accompanying financial statements and, accordingly, we are unable to express, and do not express an opinion on them.

Our review was made in reference to the applicable sections of legislative criteria, as reflected by the Ohio Constitution, and the Revised Code, policies, procedures and guidelines of the Auditor of State, regulations and grant requirements. Miami Township is responsible for compliance with these laws and regulations.

## INDEPENDENT AUDITOR'S REPORT

Miami Township  
Montgomery County  
2700 Lyons Road  
Miamisburg, Ohio 45342

To the Board of Trustees:

### ***Report on the Audit of the Financial Statements***

#### ***Opinions***

We have audited the modified cash-basis financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of **Miami Township**, Montgomery County, Ohio (the Township), as of and for the year ended December 31, 2021 and the related notes to the financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective modified cash-basis financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Township, as of December 31, 2021, and the respective changes in modified cash-basis financial position thereof and the respective budgetary comparison for the General, Road and Bridge, Police, Fire, Austin TIF-East, and Kingsridge TIF Funds for the year then ended in accordance with the modified cash-basis of accounting described in Note 2.

#### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Township, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### ***Emphasis of Matter - Accounting Basis***

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting described in Note 2, and for determining that the modified cash basis of accounting is an acceptable basis for preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Township's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Township's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

**Supplementary Information**

Our audit was conducted to opine on the financial statements as a whole that collectively comprise the Township's basic financial statements.

The Schedule of Expenditures of Federal Awards as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards is presented for purposes of additional analysis and is not a required part of the financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied to the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated in all material respects in relation to the basic financial statements as a whole.

**Other Information**

We applied no procedures to management's discussion & analysis as listed in the table of contents. Accordingly, we express no opinion or any other assurance on it.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated October 14, 2022, on our consideration of the Township's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Township's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Township's internal control over financial reporting and compliance.

---

This discussion and analysis of Miami Township's financial performance provides an overall review of the Township's financial activities for the year ended December 31, 2021, within the limitations of the Township's modified cash basis of accounting. Readers should also review the basic financial statements and notes to enhance their understanding of the Township's financial performance.

### **Using the Basic Financial Statements**

This annual report is presented in a format consistent with the presentation requirements of Governmental Accounting Standards Board Statement No. 34, as applicable to the Township's modified cash basis of accounting.

### **Report Components**

The statement of net position - modified cash basis and the statement of activities - modified cash basis provide information about the cash activities of the Township as a whole.

Fund financial statements provide a greater level of detail. Funds are created and maintained on the financial records of the Township as a way to segregate money whose use is restricted to a particular specified purpose. These statements present financial information by fund, presenting funds with the largest balances or most activity in separate columns.

The notes to the financial statements are an integral part of the government-wide and fund financial statements and provide expanded explanation and detail regarding the information reported in the statements.

### **Basis of Accounting**

The basis of accounting is a set of guidelines that determine when financial events are recorded. The Township has elected to present its financial statements on a modified cash basis of accounting. This basis of accounting is a basis of accounting other than generally accepted accounting principles. Under the Township's modified cash basis of accounting, receipts and disbursements are recorded when cash is received or paid.

As a result of using the modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable) and certain liabilities and their related expenditures (such as accounts payable) are not recorded in the financial statements. Therefore, when reviewing the financial information and discussion within this report, the reader must keep in mind the limitations resulting from the use of the modified cash basis of accounting.

### **Reporting the Township as a Whole**

The statement of net position - modified cash basis and the statement of activities - modified cash basis reflect how the Township did financially during 2021, within the limitations of the modified cash basis accounting. The statement of net position - modified cash basis presents the pooled cash and investment balances of the governmental activities of the Township at year-end. The statement of activities - modified cash basis compares cash disbursements with program receipts for each governmental program.

---

Program receipts include charges paid by the recipient of the program's goods or services and grants and contributions restricted to meeting the operational or capital requirements of a particular program. General cash receipts are all receipts not classified as program receipts. The comparison of cash disbursements with program receipts identifies how each governmental function draws from the Township's general receipts.

These statements report the Township's cash position and the changes in cash position. Keeping in mind the limitations of the modified cash basis of accounting, you can think of these changes as one way to measure the Township's financial health. Over time, increases or decreases in the Township's cash position is one indicator of whether the Township's financial health is improving or deteriorating. When evaluating the Township's financial condition, you should also consider other non-financial factors as well such as the Township's property tax base, the condition of the Township's capital assets and infrastructure, the extent of the Township's debt obligations, the reliance on non-local financial resources for operations and the need for continued growth in the major local revenue sources such as property taxes.

In the statement of net position - modified cash basis and the statement of activities - modified cash basis, the Township has only governmental activities. The Township's basic services are reported here, including general government, public safety, public works, economic development and conservation-recreation. Property taxes and intergovernmental receipts finance most of these activities. Benefits provided through governmental activities are not necessarily paid for by the people receiving them.

### **Reporting the Township's Most Significant Funds**

Fund financial statements provide detailed information about the Township's major funds – not the Township as a whole. The Township establishes separate funds to better manage its many activities and to help demonstrate that money that is restricted for a specific use is being spent for the intended purpose.

All of the Township's activities are reported in governmental funds. The governmental fund financial statements provide a detailed view of the Township's governmental operations and the basic services it provides. Governmental fund information helps determine whether there are more or less financial resources that can be spent to finance the Township's programs. The Township's significant governmental funds are presented on the financial statements in separate columns. The information for non-major funds (funds whose activity or balances are not large enough to warrant separate reporting) is combined and presented in total in a single column. The Township's major governmental funds are the General, Police, Fire, Road and Bridge, Austin-East TIF, and Kingsridge TIF Funds. The programs reported in governmental funds are closely related to those reported in the governmental activities section of the entity-wide statements.

Thirty-seven percent (37%) of the Township's 2021 general and program receipts were from property and other local taxes, 20% from Refunding Proceeds, along with Payments in Lieu of Taxes accounting for another 23% of general and program receipts. Local government funds, fine and forfeitures, special assessments, miscellaneous receipts and earnings on investments make up the balance of the Township's general receipts.

Disbursements for General Government represent the overhead costs of running the Township and the support services provided for the other Township activities. These include the costs of the board of trustees, the administrator's office, finance/compliance, and community development. Since these costs do not represent direct services to residents, we try to limit these costs to 10% of General Fund unrestricted receipts.

Public Safety is the cost of police and fire protection; Public Works is the cost of road maintenance, building maintenance, and vehicle maintenance. Economic Development is the cost of promoting industrial and commercial development. Conservation & Recreation activities are the costs of maintaining the parks.

**Governmental Activities**

If you look at the Statement of Activities for 2021, you will see that the first column lists the major services provided by the Township. The next column identifies the costs of providing these services. The major program disbursements for governmental activities are for public safety. The two columns of the Statement entitled Program Cash Receipts identify amounts paid by people who are directly charged for the service and grants received by the Township that must be used to provide a specific service. The Net (Disbursements) column compares the program receipts to the cost of the service. This "net cost" amount represents the cost of the service, which is paid from money provided by local taxpayers. These net costs are paid from the general receipts, which are presented at the bottom of the Statement. A comparison between the total cost of services and the net cost is presented in Table 3.

**General Fund Budgeting Highlights**

The Township's budget is prepared according to Ohio law and is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During 2021, the Township adjusted the General Fund budget to reflect increased receipts and expenditures. Actual receipts were \$3,325,628 which is \$334,701 or 11.19% greater than anticipated. In addition, final disbursements were \$2,538,293 which is \$251,375 or 9.01% less than anticipated.

**Capital Assets and Debt Administration**

**Capital Assets**

The Township has chosen not to report capital assets and infrastructure. The Township reports the acquisition of capital assets as disbursements in the statement of activities and statement of cash receipts, disbursements, and changes in fund balances.

**Debt**

On May 4, 2021, the Township issued Series 2021 Refunded Bonds totaling \$6,805,000. The refunding included the outstanding bonds from the Montgomery County Transportation Improvement District for Limited Tax General Obligation Transportation Improvement Bonds, Series 2010, Austin Landing, Austin Road interchange and other projects. The 2021 Refunded Bonds lowered the net present value of future principal and interest payments and did not alter or extend the timing of the principal repayment. At December 31, 2021 the Township had \$6,405,000 outstanding on the Refunding Series 2021 bonds.

On December 8, 2020, the Township issued Series 2020 Refunded Bonds totaling \$5,305,000. The refunding included the outstanding bonds from the Limited Tax General Obligation Transportation Improvement Bonds, Series 2010, Austin Landing Project. The 2020 Refunded Bonds lowered the net present value of future principal and interest payments and did not alter or extend the timing of the principal repayment. At December 31, 2021 the Township had \$4,785,000 outstanding on the Refunding Series 2020 bonds.

On August 1, 2019, the Township issued Series 2019 Refunded Bonds totaling \$8,180,000. The refunding included the outstanding bonds from the MCTID Special Obligation Bonds, Series 2008A Kingsridge Drive Project and the outstanding bonds maturing after 2021 in the Build America Bonds, Taxable Series 2010B originally issued by the Township. The 2019 Refunded Bonds lowered the present value of the future principal and interest payments and did not alter or extend the timing of the principal repayment. At December 31, 2021, the Township had \$6,955,000 outstanding on the Refunding Series 2019 bonds.

In 2015, the Township issued bonds for various purposes including the prepayment of the certificates of participation that had been issued for the construction of the township administration building. Bonds were also issued to retire the bond anticipation notes that had been issued for the construction of Austin

Landing, the Austin Rd interchange with I-75 and related projects. At December 31, 2021, the Township had \$14,855,000 outstanding on these bonds.

The Township also has three outstanding loans through the State Infrastructure Bank for various road projects in the township. The first loan is related to the widening of Austin Boulevard at I-75. Scheduled to be repaid in 2023, this loan has an outstanding balance of \$80,081.

The second loan is related to pedestrian safety improvements project along Lyons Rd. Scheduled to be repaid in 2028, this loan has an outstanding balance of \$557,613.

The third loan is related to the connection of Vienna Parkway to State Route 741. Scheduled to be repaid in 2029, this loan has an outstanding balance of \$1,923,856.

Additional information on the Township's debt can be found in Notes 10 and 11 to the financial statements.

**Current Issues**

The challenge for all governments is to provide quality services to the public while staying within the restrictions imposed by limited funding. Property taxes are a significant source of revenue for the Township. Enhancing the property tax base while maintaining an attractive mix of residential, retail, commercial, and green space property is therefore imperative.

In addition, the COVID-19 pandemic has created additional stress on these expectations but at a safe, socially-distant manner. The Township has implemented CDC and Montgomery County Health Department guidelines as needed and continues to operate in accordance with the Governor's orders related to the pandemic response throughout the State of Ohio.

**Contacting the Township's Financial Management**

This financial report is designed to provide citizens, taxpayers, investors, and creditors with a general overview of the Township's finances and to reflect the Township's accountability for the monies it receives. Questions concerning any of the information in this report or requests for additional information should be directed to the Fiscal Officer, Miami Township, 2700 Lyons Road, Miamisburg, Ohio 45342.

**Note 1 – Reporting Entity**

Miami Township, Montgomery County, Ohio, (the Township) is a body politic and corporate established to exercise the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The Township is directed by a publicly elected three-member Board of Trustees. The Township also has an elected Township Fiscal Officer.

The reporting entity is composed of the primary government, component units and other organizations that were included to ensure that the financial statements are not misleading.

***Primary Government***

The primary government consists of all funds, departments, boards and agencies that are not legally separate from the Township. The primary government of the Township provides the following services to its citizens: general government services, maintenance of Township roads and bridges, and police protection.

***Component Units***

Component units are legally separate organizations for which the Township is financially accountable. The Township is financially accountable for an organization if the Township appoints a voting majority of the organization's governing board; and (1) the Township is able to significantly influence the programs or services performed or provided by the organization; or (2) the Township is legally entitled to or can otherwise access the organization's resources; the Township is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide support to, the organization; or the Township is obligated for the debt of the organization. Component units may also include organizations for which the Township authorizes the issuance of debt or the levying of taxes or determines the budget if there is also the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on the Township. Component units also include legally separate, tax-exempt entities whose resources are for the direct benefit of the Township, accessible to the Township, and significant in amount to the Township.

Based on these criteria, the Township has no component units.

***Joint Ventures, Jointly Governed Organizations and Public Entity Risk Pools***

The Township participates in jointly governed organizations and one public entity risk pool. Notes 7 and 13 to financial statements provide additional information for these entities. These organizations are:

Jointly Governed Organizations:

- *Miami Township – City of Dayton Joint Economic Development District* – This organization is the result of an agreement between the Township and the City of Dayton to promote economic development activities in a geographic area located in Miami Township and includes the Dayton - Wright Brothers Airport, which is owned by the City of Dayton.
- *Miami Crossing Joint Economic Development District* – This organization is the result of an agreement between the Township and the City of Miamisburg to promote economic development activities in a geographic area located in Miami Township.

**Miami Township**

---

- *Austin Landing Joint Economic Development District* – This organization is the result of an agreement between the Township, the City of Miamisburg, the City of Springboro and Montgomery County to promote economic development activities in a geographic area located in Miami Township.
- *Miami Valley Fire District* – This organization is the result of an agreement between the Township and the City of Miamisburg to provide fire and emergency medical services to the citizens of Miamisburg and Miami Township.
- *Hillgrove Union Cemetery* – This organization is the result of an agreement between the Township and the City of Miamisburg to provide burial grounds and burial services to the public.
- *Montgomery County Transportation Improvement District* – This organization is a statutorily created political subdivision created for the purpose of financing, constructing, maintaining, repairing, and operating selected transportation projects. The Township has entered into a cooperative agreement with the District.

Note 13 to the financial statements provides additional information for these entities.

Public Entity Risk Pool:

- The Township participates in one public entity risk pool, the Ohio Township Association Risk Management Authority (OTARMA).

Note 7 to the financial statements provide additional information for this entity.

The Township's management believes these financial statements present all activities for which the Township is financially accountable.

**Note 2 – Summary of Significant Accounting Policies**

As discussed further in the Basis of Accounting section of this Note, these financial statements are presented on a modified cash basis of accounting. This modified cash basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements, which have been applied to the extent they are applicable to the modified cash basis of accounting. Following are the more significant of the Township's accounting policies.

***Basis of Presentation***

The Township's basic financial statements consist of government-wide financial statements, including a statement of net position – modified cash basis and a statement of activities – modified cash basis, and fund financial statements which provide a more detailed level of financial information.

**Miami Township**  
*Montgomery County, Ohio*  
*Notes to the Basic Financial Statements*

---

***Government-Wide Financial Statements***

The statement of net position – modified cash bases and the statement of activities – modified cash basis display information about the Township as a whole. These statements include the financial activities of the primary government. Governmental activities generally are financed through taxes, intergovernmental receipts or other nonexchange transactions.

The statement of net position – modified cash basis presents the cash and investment balances of the governmental activities of the Township at year end. The statement of activities – modified cash basis compares disbursements with program receipts for each of the Township's governmental activities. Disbursements are reported by function. A function is a group of related activities designed to accomplish a major service or regulatory program for which the Township is responsible. Program receipts include charges paid by the recipient of the program's goods or services, grants and contributions restricted to meeting the operational or capital requirements of a particular program and receipts of interest earned on grants that are required to be used to support a particular program. General receipts are all receipts not classified as program receipts, with certain limited exceptions. The comparison of direct disbursements with program receipts identifies the extent to which each governmental function is self-financing on a modified cash basis or draws from the Township's general receipts.

***Fund Financial Statements***

During the year, the Township segregates transactions related to certain Township functions or activities in separate funds to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the Township at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

***Fund Accounting***

The Township uses fund accounting to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Funds are used to segregate resources that are restricted use. All of the Township's funds are categorized as governmental.

***Governmental Funds***

The Township classifies funds finances primarily from taxes, intergovernmental receipts (e.g. grants), and other non-exchange transactions as governmental funds. The following are the Township's major governmental funds:

- ***General Fund*** – The General Fund accounts for and reports all financial resources not accounted for and reported in another fund. The general fund balance is available to the Township for any purpose provided it is expended or transferred according to the general laws of Ohio.
- ***Road and Bridge Fund*** – The Road and Bridge Fund accounts for and reports property tax (inside millage) committed for the construction, reconstruction, resurfacing and repair of Township roads and bridges.
- ***Police Fund*** – The Police Fund receives property tax money for operating and maintaining the police department and the purchase of equipment.

**Miami Township**  
*Montgomery County, Ohio*  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2021*

---

- ***Fire Fund*** – The Fire Fund receives property tax money for operating and maintaining the fire department and the purchase of equipment.
- ***Austin-East TIF Fund*** – The Austin TIF-East Fund receives payments in lieu of taxes for properties under tax increment financing located within the Austin Road Interchange district.
- ***Kingsridge TIF Fund*** – The Kingsridge TIF Fund receives payments in lieu of taxes for properties under tax increment financing located within the Kingsridge district.

The other governmental funds of the Township account for and report grants and other resources, whose use is restricted to a particular purpose.

***Basis of Accounting***

The Township’s financial statements are prepared using the modified cash basis of accounting. Except for modifications having substantial support, receipts are recorded in the Township’s financial records and reported in the financial statements when cash is received rather than when earned and disbursements are recorded when cash is paid rather than when a liability is incurred. The Township uses a cash basis modified to include Ohio Revised Code 135 long-term investments.

As a result of the use of this modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued liabilities and the related expenses) are not recorded in these financial statements.

***Budgetary Process***

All funds are legally required to be budgeted and appropriated. The major documents prepared are the certificate of estimated resources and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources establishes a limit on the amount the Township may appropriate.

The appropriations resolution is the Township’s authorization to spend resources and sets limits on disbursements plus encumbrances at the level of control selected by the Township. The legal level of control has been established at the fund and within each, the amount appropriated for personnel services level for all funds.

The certificate of estimated resources may be amended during the year if projected increases or decreases in receipts are identified by the Township Fiscal Officer. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the amended certificate of estimated resources in effect at the time final appropriations were passed by the Township.

**Miami Township**  
*Montgomery County, Ohio*  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2021*

---

The appropriations resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Township during the year.

***Cash and Investments***

To improve cash management, cash received by the Township is pooled and invested. Individual fund integrity is maintained through Township records. Interest in the pool is presented as “Equity in Pooled Cash and Cash Equivalents”.

Investments are reported as assets. Accordingly, purchases of investments are not recorded as disbursements, and sales of investments are not recorded as receipts. Gains or losses at the time of sale are recorded as receipts or negative receipts (contra revenue), respectively.

During 2021, the Township invested in bank certificates of deposit, guaranteed by the FDIC, governmental securities from the Federal Home Loan Bank, the Federal Home Loan Mortgage Corporation, and Federal National Mortgage Association, money market mutual funds, and STAR Ohio. The certificates of deposit and the governmental securities are reported at cost. The Township’s money market mutual fund investment is recorded at the amount reported by the broker on December 31, 2021.

STAR Ohio (the State Treasury Asset Reserve of Ohio), is an investment pool managed by the State Treasurer’s Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but has adopted Governmental Accounting Standards Board (GASB), Statement No. 79, “Certain External Investment Pools and Pool Participants.” The Township measures their investment in STAR Ohio at the net asset value (NAV) per share provided by STAR Ohio. The NAV per share is calculated on an amortized cost basis that provides a NAV per share that approximates fair value.

For 2021, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemption gates. However, notice must be given 24 hours in advance of all deposits and withdrawals exceeding \$25 million. STAR Ohio reserves the right to limit the transaction to \$100 million per day, requiring the excess amount to be transacted the following business day(s), but only to the \$100 million limit. All accounts of the participant will be combined for these purposes.

Interest earnings are allocated to Township funds according to State statutes, grant requirements, or debt related restrictions. Interest receipts credited to all Township’s Funds during 2021 was \$175,290 which includes \$169,673 assigned to the General Funds and \$5,617 assigned to other Township funds.

Investments are reported as assets. Accordingly, purchases of investments are not recorded as disbursements, and sales of investments are not recorded as receipts. Gains or losses at the time of sale are recorded as receipts or negative receipts (contra revenue), respectively.

***Restricted Assets***

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other governments, or are imposed by law through constitutional provisions or enabling legislation. The Township did not report restricted assets for the year ending December 31, 2021.

***Inventory and Prepaid Items***

The Township reports disbursements for inventories and prepaid items when paid. These items are not reflected as assets in the accompanying financial statements.

***Capital Assets***

Acquisitions of property, plant and equipment are recorded as disbursements when paid. These items are not reflected as assets in the accompanying financial statements.

***Accumulated Leave***

In certain circumstances, such as upon leaving employment or retirement, employees are entitled to cash payments for unused leave. Unpaid leave is not reflected as a liability under the Township's modified cash basis of accounting.

***Employer Contributions to Cost-Sharing Pension Plans***

The Township recognizes the disbursement for employer contributions to cost-sharing pension plans when they are paid. As described in Notes 8 and 9, the employer contributions include portions for pension benefits and for other postemployment benefits (OPEB).

***Long-Term Obligations***

The Township's modified cash basis financial statements do not report liabilities for bonds or other long-term obligations. Proceeds of debt are reported when the cash is received, and principal and interest payments are reported when paid. Since recording a capital asset when entering into a capital lease is not the result of a cash transaction, neither an offer financing source nor a capital outlay expenditure is reported at inception. Lease payments are reported when paid.

***Net Position***

Net position is reported as restricted when there are limitations imposed on their use either through enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net position restricted for other purposes include resources restricted for public safety, road improvements, and other purposes.

The Township's policy is to first apply restricted resources when an obligation is incurred for purposes for which both restricted and unrestricted net position are available.

The Township reported restricted net position of \$17,306,534 at December 31, 2021, none of which was restricted by enabling legislation.

***Fund Balance***

Fund balance is divided into five classifications based primarily on the extent to which the Township is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

- ***Non-spendable*** – The non-spendable fund balance category includes amounts that cannot be spent because they are not in spendable form or are legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of inter-fund loans.
- ***Restricted*** – Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or is imposed by law through constitutional provisions.
- ***Committed*** – The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (resolution) of Township Trustees. Those committed amounts cannot be used for any other purpose unless the Township Trustees remove or change the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, the committed fund balance classification may be redeployed for other purposes with appropriate due process. Constraints imposed on the use of committed amounts are imposed by Township Trustees, separate from the authorization to raise the underlying revenue; therefore, compliance with these constraints is not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.
- ***Assigned*** – Amounts in the assigned fund balance classification are intended to be used by the Township for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by Township Trustees or a Township official delegated that authority by resolution, or by State Statute. State Statute authorizes the Township Clerk to assign fund balance for purchases on order provided such amounts have been lawfully appropriated.
- ***Unassigned*** – Unassigned fund balance is the residual classification for the general fund and includes amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance.

The Township applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

**Miami Township**  
*Montgomery County, Ohio*  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2021*

**Internal Activity**

Exchange transactions between funds are reported as receipts in the seller funds and as disbursements in the purchaser funds. Subsidies from one fund to another without a requirement for repayment are reported as inter-fund transfers. Inter-fund transfers are reported as other financing sources/uses in governmental funds and after non-operating receipts/disbursements in proprietary funds. Repayments from funds responsible for particular disbursements to the funds that initially paid for them are not presented in the financial statements.

**Note 3 – Accountability and Compliance**

**Accountability**

Purchasing procedures were revised during the year to ensure all purchases are associated with a valid purchase order consistent with Ohio Revised Code requirements. Oversight processes were also revised to ensure budgetary information recorded in the accounting system is adequately monitored and updated as necessary.

**Note 4 – Budgetary Basis of Accounting**

The budgetary basis as provided by law is based upon accounting for certain transactions on the basis of cash receipts, disbursements, and encumbrances. The Statement of Receipts, Disbursements and Changes in Fund Balance – Budget and Actual – Budgetary Basis presented for the General, Road and Bridge, Police, Fire, Austin-East TIF, and Kingsridge TIF Funds are prepared on the budgetary basis to provide a meaningful comparison of actual results with the budget. The difference(s) between the budgetary basis and the modified cash basis are as follows:

- Outstanding year-end encumbrances are treated as cash disbursements (budget basis) rather than as restricted, committed or assigned fund balance (modified cash basis).

Adjustments necessary to convert the results of operations at the end of the year on the budget basis to the cash basis are as follows:

	General	Road and Bridge	Police	Fire	Austin-TIF East	Kingsridge TIF Fund
Modified Cash Basis	\$ 799,195	\$ 172,752	\$ 885,515	\$ (562,407)	\$ 1,157,003	\$ 548,736
Adjustments for Encumbrances	11,860	9,035	279,699	-	2,285	-
Budget Basis	<u>\$ 787,335</u>	<u>\$ 163,717</u>	<u>\$ 605,816</u>	<u>\$ (562,407)</u>	<u>\$ 1,154,718</u>	<u>\$ 548,736</u>

**Note 5 – Deposits and Investments**

Monies held by the Township are classified by State statute into three categories.

*Active monies* are public monies determined to be necessary to meet current demands upon the Township treasury. Active monies must be maintained either as cash in the Township treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

**Miami Township**  
*Montgomery County, Ohio*  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2021*

---

*Inactive deposits* are public deposits that the Trustees have identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

*Interim deposits* are deposits of interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts, including passbook accounts.

*Interim monies* held by the Township can be deposited or invested in the following securities:

1. United States Treasury bonds, notes or bills, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
4. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
5. Bonds and other obligations of the State of Ohio, and, with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
6. The State Treasurer's investment pool (STAR Ohio);
7. Certain bankers' acceptances (for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met; and
8. Written repurchase agreements in the securities described in (1) or (2) provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase with the exception that it will be held to maturity.

**Miami Township**  
*Montgomery County, Ohio*  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2021*

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the fiscal officer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

***Deposits***

Effective July 1, 2017, the Ohio Pooled Collateral System (OPCS) was implemented by the Office of the Ohio Treasurer of State. Financial institutions have the option of participating in OPCS or collateralizing utilizing the specific pledge method. Township deposits are either (1) insured by the Federal Depository Insurance Corporation, (2) collateralized by securities specifically pledged by the financial institution to the Township, or (3) collateralized by the Ohio Pooled Collateral System.

Custodial credit risk is the risk that in the event of bank failure, the Township will not be able to recover deposits or collateral securities that are in the possession of an outside party. At year end, the Township's bank balance of \$8,925,027 was collateralized through participation in the OPCS. In addition, the Township had \$1,986 in cash balances with its brokerages pending reinvestment.

The Township has no deposit policy for custodial risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by:

Eligible securities pledged to the Township and deposited with a qualified trustee by the financial institution as security for repayment whose market value at all times shall be at least 105 percent of the deposits being secured; or

Participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution. OPCS requires the total market value of the securities pledged to be one hundred two percent of the deposits being secured or a rate set by the Treasurer of State.

***Investments***

The fair value of these investments is not materially different than measurement value. As of December 31, 2021, the Township had the following investments:

Investment Type	Measurement Value	Investment Maturities (in Years)		
		Less than 1	1-2	3-5
FHLB	\$ 993,815	\$ -	\$ -	\$ 993,815
Money Market Fund	57,327	57,327	-	-
Bank Certificate of Deposits	11,330,000	3,539,000	4,296,000	3,495,000
STAR Ohio	3,171,359	3,171,339	-	-
Total Investments	<u>\$ 15,552,501</u>	<u>\$ 6,767,666</u>	<u>\$ 4,296,000</u>	<u>\$ 4,488,815</u>

**Miami Township**  
*Montgomery County, Ohio*  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2021*

---

***Interest Rate Risk***

Interest rate risk arises because potential purchasers of debt securities will not agree to pay face value for those securities if interest rates subsequently increase. The Township’s investment policy addresses interest rate risk by requiring that the Township’s investment portfolio be structured so that securities mature to meet cash requirements for ongoing operations and/or long-term debt payments, thereby avoiding the need to sell securities on the open market prior to maturity, and by investing operating funds primarily in short term investments.

***Credit Risk***

The security underlying the Federal Home Loan Mortgage Corporation notes and the Federal Home Loan Bank notes carry a rating of AAA by Moody’s. STAR Ohio carries a rating of AAA by Standard and Poor’s. The money market fund carries a rating of AAA by Moody’s. The Township has no investment policy dealing with investment credit risk beyond the requirements in state statutes. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service and that the money market fund be rated in the highest category at the time of purchase by at least one nationally recognized standard rating service.

***Custodial Credit Risk***

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Township will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Federal Home Loan Bank notes and the Federal Home Loan Mortgage Corporation notes are exposed to custodial risk as they are uninsured, unregistered and held by the counterparty’s trust department or agent but not in the Township’s name.

The Township has no investment policy dealing with investment custodial risk beyond the requirements in ORC 135.14(M)(2) which states, “Payment for investments shall be made only upon the delivery of securities representing such investments to the treasurer, governing board, or qualified trustee. If the securities transferred are not represented by a certificate, payment shall be made only upon receipt of confirmation of transfer from the custodian by the treasurer, governing board, or qualified trustee.”

***Concentration of Credit Risk***

The Township places no limit on the amount it may invest in any one issuer. The following investments represent five percent or more of total investments as of December 31, 2021:

Investment Issuer	Percentage of Investments
Bank Certificate of Deposit	72.85 %
Federal Home Loan Bank Notes	6.39 %
STAROhio	20.39 %

**Note 6 – Property Taxes**

Property taxes include amounts levied against all real and public utility property located in the Township. Property tax revenue received during 2021 for real and public utility property taxes represents collections of 2020 taxes.

**Miami Township**  
*Montgomery County, Ohio*  
*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2021*

---

Real property taxes for 2021 are levied after October 1, 2021, on the assessed value as of January 1, 2021, the lien date. Assessed values are established by State law at 35 percent of appraised market value. Real property taxes for 2021 are collected in and intended to finance 2022.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

Public utility personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2021 public utility property taxes which became a lien December 31, 2020, are levied after October 1, 2021, and are collected in 2022 with real property taxes.

The full tax rate for all Township operations for the year ended December 31, 2021, was \$20.40 per \$1,000 of assessed value. The assessed values of real property and public utility tangible property upon which 2021 property tax receipts were based are as follows:

Real Property	\$691,024,950
Public Utility Personal Property	<u>21,429,190</u>

The County Treasurer collects property taxes on behalf of all taxing districts in the county, including the Township. The County Auditor periodically remits to the Township its portion of the taxes collected.

***Tax Abatements***

For purposes of GASB Statement No 77, the definition of a tax abatement is: A reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are otherwise entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the governments or the citizens of those governments.

For the year ending December 31, 2021, Miami Township has one Enterprise Zone property tax abatement agreement. Enterprise zones are designated areas of land in which businesses can receive tax incentives in the form of tax exemptions for a portion of the value of new real property when the investment is made in conjunction with a project that include job creation. The parcel is subject to a 60% exemption through 2022. For 2021, the total value of real property subject to exemption was \$571,820. The impact on the township is as follows: General Fund - \$36; Road & Bridge - \$464; Police Fund - \$2,077; and Fire Fund - \$1,404. The total amount was \$3,981.

**Note 7 – Risk Management**

The Township is a member of the Ohio Township Association Risk Management Authority (the Pool). The Pool assumes the risk of loss up to the limits of the Township’s policy. The Pool covers the following risks:

- General liability and casualty
- Public official’s liability
- Cyber

Actuarial Liabilities	\$10,601,444

**Note 8 – Defined Benefit Pension Plan**

Plan Description – Township employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan, and the combined plan is a combination cost-sharing, multiple-employer defined benefit/defined contribution pension plan. Participating employers are divided into state, local, law enforcement and public safety divisions. While members in the state and local divisions may participate in all three plans, law enforcement and public safety divisions exist only within the traditional plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost-of-living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members in the traditional and combined plans were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to Final Average Salary (FAS) for the three member groups under the traditional and combined plans as per the reduced benefits adopted by SB 343 (see OPERS Annual Comprehensive Financial Report referenced above for additional information, including requirements for reduced and unreduced benefits):

Final Average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

Members who retire before meeting the age and years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount. The initial amount of a member's pension benefit is vested upon receipt of the initial benefit payment for calculation of an annual cost-of-living adjustment.

When a traditional plan benefit recipient has received benefits for 12 months, current law provides for an annual cost of living adjustment (COLA). This COLA is calculated on the base retirement benefit at the date of retirement and is not compounded. Members retiring under the combined plan receive a cost-of-living adjustment of the defined benefit portion of their pension benefit. For those retiring prior to January 7, 2013, current law provides for a 3 percent COLA. For those retiring on or after January 7, 2013, beginning in calendar year 2019, the adjustment is based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

*Notes to the Basic Financial Statements*  
*For the Year Ended December 31, 2021*

Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Member-directed plan and combined plan members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. Combined plan members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the member-directed plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20 percent each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual OPERS accounts. Options include the annuitization of their benefit (which includes joint and survivor options), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options. When members chose to annuitize their defined contribution benefit, the annuitized portion of the benefit is reclassified to a defined benefit.

Beginning in 2022, the Combined Plan will be consolidated under the Traditional Pension Plan (defined benefit plan) and the Combined Plan option will no longer be available for new hires beginning in 2022.

Funding Policy – The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	<u>State and Local</u>	<u>Public Safety</u>	<u>Law Enforcement</u>

- \* Member contributions within the combined plan are not used to fund the defined benefit retirement allowance.
- \*\* This rate is determined by OPERS' Board and has no maximum rate established by ORC.
- \*\*\* This rate is also determined by OPERS' Board, but is limited by ORC to not more than 2 percent greater than the Public Safety rate.
- \*\*\*\* These pension and employer health care rates are for the traditional and combined plans. The employer contributions rate for the member-directed plan is allocated 4 percent for health care with the remainder going to pension.

---

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll.

For 2021, the Township's contractually required contribution was \$882,832 for the traditional plan, \$8,480 for the combined plan and \$16,898 for the member-directed plan.

**Note 9 – Postemployment Benefits**

Plan Description – The Ohio Public Employees Retirement System (OPERS) administers three separate pension plans: the traditional pension plan, a cost-sharing, multiple-employer defined benefit pension plan; the member-directed plan, a defined contribution plan; and the combined plan, a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit postemployment health care trust, which funds multiple health care plans including medical coverage, prescription drug coverage and deposits to a Health Reimbursement Arrangement to qualifying benefit recipients of both the traditional pension and the combined plans. Currently, Medicare-eligible retirees are able to select medical and prescription drug plans from a range of options and may elect optional vision and dental plans. Retirees and eligible dependents enrolled in Medicare Parts A and B have the option to enroll in a Medicare supplemental plan with the assistance of the OPERS Medicare Connector. The OPERS Medicare Connector is a relationship with a vendor selected by OPERS to assist retirees, spouses and dependents with selecting a medical and pharmacy plan. Monthly allowances, based on years of service and the age at which the retiree first enrolled in OPERS coverage, are deposited into an HRA. For non-Medicare retirees and eligible dependents, OPERS sponsors medical and prescription coverage through a professionally managed self-insured plan. An allowance to offset a portion of the monthly premium is offered to retirees and eligible dependents. The allowance is based on the retiree's years of service and age when they first enrolled in OPERS coverage.

Medicare-eligible retirees who choose to become re-employed or survivors who become employed in an OPERS-covered position are prohibited from participating in an HRA. For this group of retirees, OPERS sponsors secondary coverage through a professionally managed self-insured program. Retirees who enroll in this plan are provided with a monthly allowance to offset a portion of the monthly premium. Medicare-eligible spouses and dependents can also enroll in this plan as long as the retiree is enrolled.

OPERS provides a monthly allowance for health care coverage for eligible retirees and their eligible dependents. The base allowance is determined by OPERS.

The health care trust is also used to fund health care for member-directed plan participants, in the form of a Retiree Medical Account (RMA). At retirement or separation, member directed plan participants may be eligible for reimbursement of qualified medical expenses from their vested RMA balance.

Effective January 1, 2022, OPERS will discontinue the group plans currently offered to non-Medicare retirees and re-employed retirees. Instead, eligible non-Medicare retirees will select an individual medical plan. OPERS will provide a subsidy or allowance via an HRA allowance to those retirees who meet health care eligibility requirements. Retirees will be able to seek reimbursement for plan premiums and other qualified medical expenses.

In order to qualify for postemployment health care coverage, age and service retirees under the traditional pension and combined plans must have twenty or more years of qualifying Ohio service credit with a minimum age of 60, or generally 30 years of qualifying service at any age. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. Current retirees eligible (or who become eligible prior to January 1, 2022) to participate in the OPERS health care program will continue to be eligible after January 1, 2022. Eligibility requirements will change for those retiring after January 1, 2022, with differing eligibility requirements for Medicare retirees and non-Medicare retirees. The health care coverage provided by OPERS meets the definition of an Other Post Employment Benefit (OPEB) as described in GASB Statement 75. See OPERS' Annual Comprehensive Financial Report referenced below for additional information.

The Ohio Revised Code permits but does not require OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or (800) 222-7377.

Funding Policy – The Ohio Revised Code provides the statutory authority requiring public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, OPERS no longer allocated a portion of its employer contributions to health care for the traditional plan and the combined plan.

Employer contribution rates are expressed as a percentage of the earnable salary of active members. In 2021, state and local employers contributed at a rate of 14.0 percent of earnable salary and public safety and law enforcement employers contributed at 18.1 percent. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. For 2021, OPERS did not allocate any employer contribution to health care for members in the Traditional Pension Plan and Combined Plan. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the Member-Directed Plan for 2021 was 4.0 percent.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The Township's contractually required contribution was \$4,828 for the year 2021.

*Hillgrove Union Cemetery* is a jointly governed organization by Miami Township and the City of Miamisburg. The Cemetery provides burial groups and burial services to the public.

In September 2006, it was determined the Hillgrove Cemetery Association could no longer operate as a viable organization. Therefore, it was determined that a joint cemetery be established to ensure the on-going operations and maintenance of the Hillgrove Cemetery. In accordance with Ohio Revised Code Section 759.27, the City and Township decided to form a union cemetery to manage and operate Hillgrove Cemetery. The agreement called for each party to equally share any cost to operate, maintain, and improve the Cemetery in excess of the revenues it receives.

As a result of this agreement, and in accordance with Ohio Law, a joint council consisting of the council members of the City of Miamisburg and the Trustees of Miami Township governs the Cemetery. The joint council appoints the members of the Board of Trustees. The Board of Trustees consist of the following: one elected member of the legislative body from each of the political subdivisions and one appointed resident from each of the political subdivisions who is not a member of the legislative body.

The joint council exercises control over the operation of the Cemetery through budgeting, appropriating, and contracting. The Board of Trustees control daily operations of the Cemetery. During 2021, the Township contributed a total of \$57,000 to the Cemetery.

*Montgomery County Transportation Improvement District* is a statutorily created political subdivision created for the purpose of financing, constructing, maintaining, repairing and operating selected transportation projects. The District is a jointly governed entity administered by a Board of Directors that acts as a legislative body and is comprised of seven board members, of whom five are voting and two are non-voting appointed by Montgomery County and State governments. Of the seven, three are elected as officers of the District.

The Township entered into a cooperative agreement with the District on December 15, 2005, which was last amended on March 16, 2021, and includes the City of Miamisburg, Miami Township, the City of Springboro, and the Miamisburg City School District related to the Austin Road Interchange Project. This project is intended to enhance and facilitate traffic flow in the southern portion of Montgomery County and further stimulate development of real property in the hope of expanding the employment base in the area. Each entity has agreed to borrow their predetermined respective sum as collateral for the District borrowing monies from the State Infrastructure Bank or from any other appropriate sources in an amount to pay their respective portion of the costs to be incurred for the Austin Road Interchange Project.

Additionally, the Township entered into arrangements with the District to issue Special Obligation Bonds for the Austin Landing, Austin Landing Phase II, Kingsridge Drive, and Vienna Parkway Projects. Repayment of the bonds is collateralized by Tax Increment Financing and other local receipts.

#### **Note 14 – Fund Balances**

Fund balance is classified as non-spendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the Township is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented below:

**Miami Township**  
*Montgomery County, Ohio*  
*Notes to the Basic Financial Statements*

In addition to the above fund balance constraints, the Township has a budget stabilization arrangement for the General Fund, Road & Bridge Fund, Police Fund and Fire Fund that does not meet the criteria to be classified as restricted or committed. Pursuant to Ohio Revised Code Section 5705.13, the Township established a budget stabilization by resolution to provide options to respond to unexpected issues and afford a buffer against shocks and other forms of risk such as revenue volatility, unexpected infrastructure failure, or disaster situations. Expenditures of a recurring nature are not addressed through the use of this arrangement. The Township Trustees authorized the funding of this arrangement as resources become available in the appropriate funds. Stabilization fund balances should not exceed 30 percent of the appropriate fund average revenues. The balance in the reserve at December 31, 2021, is General Fund \$136,228, Road & Bridge Fund \$79,073, Police Fund \$211,201, and Fire Fund \$209,124.

**Note 15 – COVID-19**

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. Ohio’s state of emergency ended in June, 2021 while the national state of emergency continues. During 2021, the Township received COVID-19 funding. The financial impact of COVID-19 and the continuing emergency measures will impact subsequent periods of the Township. The impact on the Township’s future operating costs, revenues, and additional recovery from emergency funding, either federal or state, cannot be estimated.

The Township’s investment portfolio fluctuates with market conditions, and due to market volatility, the amount of gains or losses that will be realized in subsequent periods, if any, cannot be determined.

FOR THE YEAR ENDED DECEMBER 31, 2021**

**Note A – Significant Accounting Policies**

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of **Miami Township**, Montgomery County, Ohio (the Township) under programs of the federal government for the year ended December 31, 2021. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Township, it is not intended to and does not present the financial position or changes in net position of the Township.

**Note B – Summary of Significant Accounting Policies**

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The Township has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
REQUIRED BY GOVERNMENT AUDITING STANDARDS**

Miami Township  
Montgomery County  
2700 Lyons Road  
Miamisburg, Ohio 45342

To the Board of Trustees:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the modified cash-basis financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of **Miami Township**, Montgomery County, (the Township) as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements and have issued our report thereon dated October 14, 2022.

**Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Township's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purposes of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, we do not express an opinion on the effectiveness of the Township's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

### **Internal Control Over Financial Reporting (Continued)**

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We identified certain deficiencies in internal control, described in the accompanying schedule of audit findings as items 2021-001 and 2021-002 that we consider to be material weaknesses.

### ***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the Township's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of audit findings as item 2021-002.

### **Township's Response to Findings**

*Government Auditing Standards* requires the auditor to perform limited procedures on the Township's responses to the findings identified in our audit and described in the accompanying schedule of audit findings. The Township's responses were not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

### ***Purpose of this Report***

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Township's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Township's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS  
APPLICABLE TO THE MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER  
COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE**

Miami Township  
Montgomery County  
2700 Lyons Road  
Miamisburg, Ohio 45342

To the Board of Trustees:

***Report on Compliance for the Major Federal Program***

We have audited Miami Township's (the Township) compliance with the types of compliance requirements identified as subject to audit in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on the Township's major federal program for the year ended December 31, 2021. The Township's major federal program is identified in the *Summary of Auditor's Results* section of the accompanying schedule of audit findings.

In our opinion, the Township complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended December 31, 2021.

***Basis for Opinion on the Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the *Auditor's Responsibilities for the Audit of Compliance* section of our report.

We are required to be independent of the Township and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for the major federal program. Our audit does not provide a legal determination of the Township's compliance with the compliance requirements referred to above.

***Responsibilities of Management for Compliance***

The Township's Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the Township's federal programs.

***Auditor's Responsibilities for the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Township's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Township's compliance with the requirements of the major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Township's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the Township's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of this testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**Financial Reporting (Continued)**

Receipts, disbursements, and fund balances were not always posted or classified correctly. The following errors were noted:

- Assigned fund balance in the General Fund was incorrectly calculated using the encumbrances outstanding at the end of 2020 instead of the encumbrances outstanding at the end of 2021;
- A portion of the debt proceeds and corresponding capital outlay disbursements for the Vienna Parkway SIB Loan were not recorded in the General Fund;
- Debt proceeds and the corresponding capital outlay disbursement for the 2021 dump truck were not recorded in the Road & Bridge Fund;
- A debt payment for the 2021 dump truck was misclassified as Capital Outlay instead of Principal Retirement in the Road & Bridge Fund; and
- A portion of debt payment for the SIB Byers Road loan was misclassified as Interest and Fiscal Charges instead of Principal Retirement in the Austin TIF-West Fund.

Not posting receipts and disbursements or classifying fund balances accurately resulted in the financial statements requiring several reclassifications. The financial statements reflect all reclassifications.

We also noted errors in the Township's Statements of Receipts, Disbursements, and Changes in Fund Balances – Budget and Actual – Budget Basis statements:

- Outstanding encumbrances at year end were not included in actual disbursements in the General, Road and Bridge, Police, and Austin TIF-East Funds.

To help ensure accuracy and reliability in the financial reporting process, we recommend management perform a detailed review of its draft financial statements. Such review should include procedures to ensure that all sources of revenues are properly identified and classified on the financial statements.

**Ohio Revised Code 5705.39**

**Ohio Rev. Code § 5705.39** provides in part that total appropriations from each fund shall not exceed the total estimated fund resources as certified by the county budget commission. No appropriation measure is effective until the county auditor files a certificate that the total appropriations from each fund do not exceed the total official estimate or amended official estimate.

Appropriations exceeded estimated resources in the Federal Law Enforcement Fund by \$282,721; in the Special Police Fund by \$2,890; and in the Vienna TIF Fund by \$21,316.

**Ohio Revised Code 5705.39 (Continued)**

Limiting appropriations to estimated resources is not only required by statute but is a key control in the budgetary and disbursement process to assure revenues are expected to be received prior to budgeting for expenditures that may exceed available revenues. To improve controls over budgeting and disbursements and to help reduce the possibility of the Township committing funds to be spent which are not available, the Township should monitor appropriations versus estimated resources to help avoid overspending throughout the year.

2021-001	Our final review process prior to submission to the Hinkle system will be revised to incorporate the errors noted in the audit. Evidence of that review will be maintained by the Finance Department until the audited financial statements are published by the Auditor of State.	In Process	Clay McCord, Finance Director
2021-002	Unbudgeted revenues will be reported to the County Auditor in a timely manner to ensure appropriations do not exceed available resources. In this case, the federal government disbursed forfeiture funds to the Miami Township Police Department for previous years activities. The funds were on deposit and available prior to any appropriation action by the Board of Trustees. The Finance Director will ensure that future unanticipated revenues are reported to the County Auditor so that the Available Resources may be updated.	In Process	Clay McCord, Finance Director
